Profil

Third-year student in Data Engineering and Decision Systems, passionate about data science and machine learning, particularly Generative AI and Large Language Models (LLMs). I have a strong foundation in mathematics and programming, and I am curious, detail-oriented, and committed to deepening my expertise in Data Engineering and Artificial Intelligence.

Education

Enet'Com - Sfax , 3rd year Engineering student in Data Engineering and Decision Systems	2023-2025
Faculty of Sciences of Sfax (FSS) , Preparatory Degree in Mathematics and Physics (MP)	2021-2023
Tayeb Mhiri High School – Sfax , Baccalaureate in Mathematical Sciences	2015-2021

Projets

Spam Classification System

- Designed a Deep Learning model (TensorFlow/Keras) to identify spam emails with 98% accuracy.
- Technologies: Python, NLP, embeddings, LSTM, NLTK.

SAVI-AI – Mobile Application for Detecting Violent Arabic Speech

- Developed a Flutter/Flask mobile app that intelligently classifies Arabic text as violent, non-violent, or neutral using Naïve Bayes and AraBERT models.
- Integrated a responsive chatbot that provides real-time feedback to users exhibiting harmful linguistic patterns, promoting positive communication.
- Technologies: Python, TensorFlow, Flask, Flutter.

PsyBot – Adaptive Chatbot for Anxiety Management

- Designed and implemented a Retrieval-Augmented Generation (RAG)-based chatbot to support users experiencing anxiety through contextual, personalized dialogue.
- Applied a hybrid retrieval approach (Qdrant + BM25) with reranking and BGE-M3 embeddings to enhance relevance and precision.
- Technologies: React.js, Node.js, Firebase, Ollama, BM25, BGE-M3.

Technologies

Languages: HTML, CSS, JavaScript, PHP, XML, Python, C, Java, Scala

Frameworks: Android, Flutter, Flask, React.js, Node.js

Development Environments : Jupyter Notebook, Google Colab, Visual Studio Code (VS Code)

Databases : MySQL, MongoDB

Languages

Arabe	Native	Anglais	B2 (Upper Intermediate)
Français	B1 (Intermediate)	Allemand	German: A2 (Elementary)

Certifications

- Azure AI Fundamentals
- Python and Machine Learning Training (Certificate of Completion)
- Python / SQL / SQLite Training (Certificate of Completion)
- Workshop: "AI Assistant for Gesture Recognition with Computer Vision and Generative AI" (Certificate of Participation)
- Web Development Hackathon Participation
- Flutter Development Workshop (Certificate of Participation)
